Port Sanitary Authority.

Sandwich.

1st March 1895.

Gentlemen.

During the year ending 31 December 1894 one hundred and forty two vessels entered the Sandwich Haven - Inspection as to their Sanitary condition has from time to time been made and with one or two exceptions (chiefly want of cleanliness) the arrangements have been satisfactory. No cases of Infectious Diseases or illness of any kind were notified during the year as occurring upon any ship nor was any serious accident reported.

I am glad this year to be able to state that with the introduction of the new Water Supply the Port Authority are now able to provide a plentiful and pure supply of water at a convenient spot for shipping purposes.

I remain Gentlemen.

Your obedient Servt.

K. W. Thompson
